Hobbies

- Exploring new web technologies and UI trends
- Exploring different cultures and places

👤 Profile

I'm a passionate Front-End Developer specializing in React.js, crafting sleek, high performance web applications with Tailwind CSS and Bootstrap. I thrive on turning complex ideas into seamless user experiences, blending creativity with clean, efficient code.

💼 Work Experience

Feb 2025 – Present

Next Gen Tech Solution Pvt Ltd. INDORE

Web Developer Intern / Junior Web Developer

- Collaborating with cross-functional teams to build and maintain responsive, user-friendly websites.
- Supporting website development tasks including layout structuring, content updates, and basic SEO enhancements.
- Assisting in integrating branding elements like logos, color schemes, and styles into the website to maintain consistency.

💼 Professional Projects

Kids learning platform :- dyslexia

Developed a kids' learning app, a React + Redux app for children with dynamic lesson flow, state management, and progress tracking using localStorage.
Implemented unit-based navigation, lesson locking, and modular backend-like data structure.

Under development

Hospital website :- Aarsh Reprohealth

Contributed to Arsh Repro Health, a React-based web project focused on reproductive health awareness.
Assisted with UI development and minor component integration.

Under development
